

When everything connects

LATCH DRIVER AND FEEDBACK CONNECTOR FOR GEM-SOL SERIES SOLENOID VALVES

The new economic package is aimed for application demanding power saving solutions.

Advantages & benefits

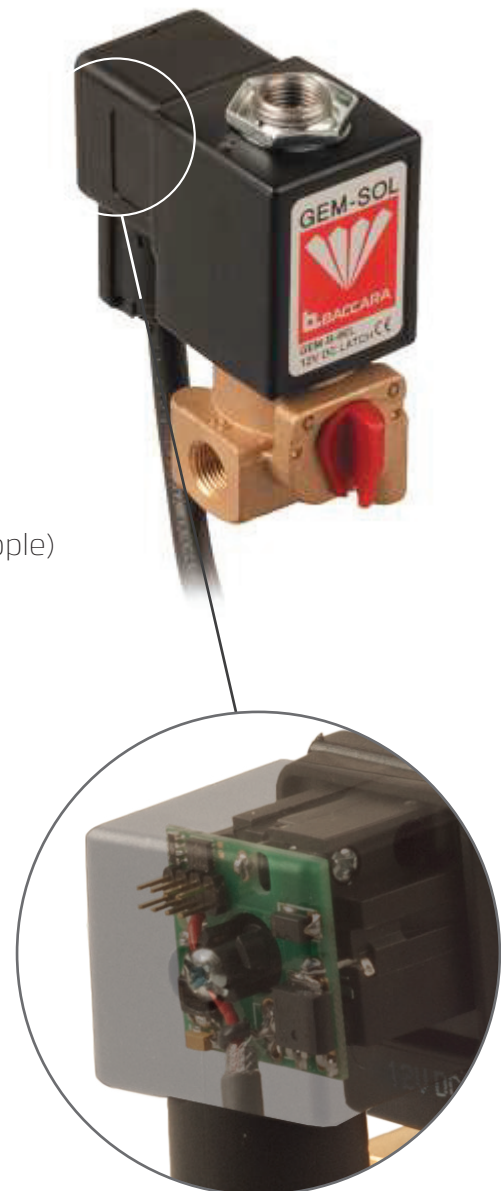

- Latch Feedback shows the valve position (open/close)
- Compact - Small size combination
- Versatile - GEM-B suitable for all baccara latch coils
- Simplifies latch system operation
- Rigid and safe - IP65
- Cable included
- User supply standard 24VDC

Technical specifications

Power Supply	12-24V DC (including $\pm 5\%$ ripple)
Temp. Range	-20°C ~ 100°C
Maximum Output Current	1500 mA
Output Current Range	0-1500 mA
Connector Cable	4 wires, 1M long
Connector Package	DIN 43650
Protection class	IP 65
Weight	90g

Applications

Irrigation & Industry, preventing heat & power saving on systems that under continues power, FAIL TO SAFE applications.

LATCH DRIVER
