

Guide to Products Conforming to International Standards

Overseas Information » Guide to Products Conforming to International Standards

A world map with a grid background, highlighting various international standards and certification logos for different regions. The map is divided into several areas, each with specific logos and text:

- Europe:** CE Marking, EU F-Gas Regulation, ATEX Directive.
- Asia:** EAC, CCC (China Compulsory Certification System).
- North America:** UL/cUL Standards, CSA Standards.
- South America:** TR-CU Customs Union Certificate (Russia, Kazakhstan, Belarus).
- Africa:** Ex (Explosion Protection).
- Oceania:** Safety Standard ISO 13849-1.

Below the map, there are two rows of colored boxes, each containing a certification logo and its corresponding text:

- CE Marking (Green box)
- EU F-Gas Regulation (Dark Blue box)
- ATEX Directive (Purple box)
- UL/cUL Standards (Pink box)
- CSA Standards (Orange box)
- TSSA Standards (Red box)
- Safety Standard ISO 13849-1 (Teal box)
- China Compulsory Certification System (CCC) (Light Green box)
- TR-CU Customs Union Certificate (Russia, Kazakhstan, Belarus) (Purple box)
